Career Objective

Aspiring Data Analyst with a solid foundation in Python, SQL, Power BI, and Excel, passionate about turning raw data into meaningful insights. Skilled in developing interactive dashboards, automating workflows, and solving real-world problems through analysis and visualization. Eager to contribute analytical and technical skills to a forward-thinking organization.

Education

Bachelor of Science (B.Sc) in Computer Science

B. K. Birla Night College / University of Mumbai, India

CGPA: 8.85 | Graded A & A+ consistently

Tools & Technologies

Power BI, Excel, Python (Pandas, Matplotlib), SQL, HTML/CSS, PHP, MySQL, Git, VS Code, Dlib, OpenCV

Projects

- **Car Sale Performance Dashboard – Power BI**
Analyzed sales performance using slicers, KPIs, filters, and bar/line charts. Extracted business insights from raw data and built an interactive report.
 - **Traffic Accident Analysis Dashboard – Power BI**
Visualized accident data by state and severity using custom visuals, maps, and filters. Helped identify patterns and hotspots for road safety insights.
 - **Drowsiness Detection System – Python, OpenCV, Dlib**
Built a real-time drowsiness alert system using facial landmark detection. Triggered alerts with sound when prolonged eye closure was detected. Integrated with a simple HTML frontend using Flask.
 - **Regal Thread – Fashion E-commerce Website – PHP, SQL**
Developed a fashion-focused e-commerce frontend with product galleries. Structured MySQL database and implemented user-friendly UI with static pages.
-

Languages Known

English, Hindi, Marathi

Notes

Open to internships and entry-level roles in data analytics, business intelligence, and data science.
